

REMARKS/ARGUMENTS

When reviewing the patent application as filed, it was noted that two different "Claim 3's" were presented in the original list of claims. This amendment simply renumbers the original claims as 1 to 42 (with one "claim 3") instead of 1 to 41 (with two claim 3's). No amendments to the text of the claims have been made.

It should be noted from the filing receipt that while the applicant originally paid for only 41 total claims, the Patent Office charged the applicant for 42 claims, so no additional claim fee should be required.

Respectfully submitted,

STALLMAN & POLLOCK LLP
